Community Water Centre

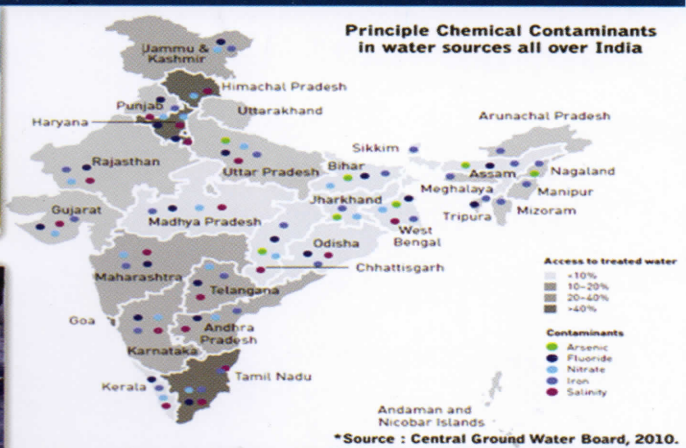

Clean Drinking Water Solution for rural & urban communities !!

Water Crisis

120th : India's ranking out of 122 nations in UN Safe Water Index

*Arsenic & fluoride poisoning affecting millions living in villages across India

*Source : Central Ground Water Board, 2010.

Every 20 seconds a child dies from water related illness

India loses 90 million days a year due to water borne diseases costing Rs.6 billion in production.

86% of the diseases in India are directly or indirectly related to poor quality of drinking water.

Solutions-Community Water Centre

- Set up of De-Centralized Water Treatment plant at the village in water quality problem (Micro Utility Approach).
- Plant based on existing contaminated water source.
- Plant designed to provide water for drinking & cooking only serving 500-1000 population per village.
- Water provided at 5-10 lpcd (litre per person per day).
- Civil or Pre fabricated Room to house the plant.
- Most suitable technology selected for tackling specific contamination.
- Operation & Maintenance by Rite Water.

Water Dispensing options

Stand Post:
Villagers collect water from water centre

Door to Door:
Operator delivers water at doorstep via Rickshaw in 20L cans

Water ATM

RFID Cards & Coin Based water ATM with online tracking via GPRS

Technology Portfolio

RO + UF system

HAIX-Nano Fluoride Removal plant

Nitrate/Arsenic/Iron removal plant

Electrolytic De-fluoridation plant

Ultrafiltration Plant

Electro Chlorination Plant

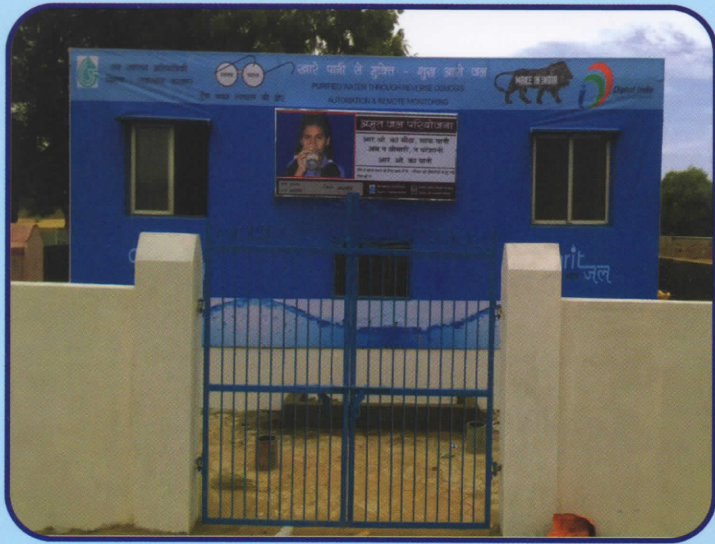

Treatment Plant Matrix

Nature Of Contaminant	Suitable Technology	Rite Water Solution
Salinity (Hardness)	Reverse Osmosis	Aqua-RO
Fluoride	Electro Coagulation Nano Technology (Nano-Material)	Aqua EDF® HAIX-Nano
Biological (Bacteria/Virus)	Ultra Filtration Ultra Voilet Electro-Chlorination	Aqua-UF Aqua-UV ENCEE CHLOR®
Nitrate	Nitrate Exchange	Aqua-NRP
Arsenic	Electro Coagulation Nano Technology (Nano-Material)	Aqua-ARP Donna Z®
Multiple	Reverse Osmosis	Aqua-RO

Our Technology Partners

We have partnered with various national & international organizations for development of ground water purification technologies
Our Products & technologies approved by various State Governments

Containerized Water ATM
